**SUMMARY** — AI-augmented Full Stack Engineer with **3.5+ years** of professional experience building scalable web applications and production-grade SaaS products. Promoted from Associate Application Engineer to **Senior Member of Technical Staff** within 3 years at Hexaview Technologies, demonstrating consistent technical leadership and value delivery. Proficient in Java, React, Node.js, GraphQL, and Spring Boot with hands-on experience deploying cloud-native solutions on AWS. Pioneers AI-driven development workflows using Claude's agentic capabilities — skills, hooks, sub-agents, and commands — to architect and ship full-stack applications, significantly accelerating delivery cycles. Experienced in Agile environments, collaborating with cross-functional teams across enterprise clients to deliver reliable, production-ready features.

## TECHNICAL COMPETENCIES

**Languages** Java, JavaScript (ES6+), TypeScript, SQL  
**Frontend** React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design  
**Backend** Node.js, Express.js, Spring Boot, Hibernate, Kafka, GraphQL, RESTful APIs, Microservices, OAuth2, JWT, Redis  
**Databases** MySQL, PostgreSQL, Oracle SQL, MongoDB, DynamoDB, Flyway (migrations)  
**Cloud & DevOps** AWS (EC2, S3, RDS, Lambda, API Gateway, CloudWatch), Docker, Kubernetes  
**AI & Dev Tools** Claude (Agentic Workflows, Sub-agents, Hooks), GitHub Copilot, Lovable.dev

## WORK EXPERIENCE

### Hexaview Technologies

Senior Member of Technical Staff  
Application Engineer  
Associate Application Engineer

Oct 2022 – Present

Apr 2024 – Present  
Apr 2023 – Apr 2024  
Oct 2022 – Apr 2023

#### Client: BCD Travel

- Developed scalable backend services using Java, Spring Boot, Kafka, and MSSQL, improving system reliability and reducing API response times by 30%.
- Built responsive React front-end components, enhancing user experience and increasing feature adoption by 25%.
- Optimized complex SQL queries and backend workflows, cutting reporting turnaround time by 30%.
- Collaborated with cross-functional teams to deliver high-impact features across Agile sprints.

#### Client: Advito

- Designed and implemented RESTful APIs using Node.js and PostgreSQL, ensuring scalable and secure data handling across analytics pipelines.
- Developed dynamic React-based dashboards for real-time analytics and reporting, improving data visibility for stakeholders.
- Refactored legacy modules and improved architectural patterns, boosting team productivity by 20%.

#### Client: MobEx

- Implemented advanced Redux state management, reducing UI inconsistencies and client-reported errors by 35%.
- Optimized front-end performance, cutting average page load times by 1.5 seconds.
- Partnered with QA teams to reduce production defects by 25% while maintaining 99.9% application uptime.

### Creware Technologies

Software Developer Intern

Nov 2021 – Oct 2022

#### Client: OPTRA

- Developed and maintained React Native mobile applications, increasing active mobile users by 40%.
- Implemented Redux-based state management and optimized API integrations, reducing application crashes by 30%.
- Built supporting backend services using Node.js and Express.js.

#### Client: Scoreleap

- Delivered full-stack solutions using React.js, Node.js, Express, and MongoDB, improving overall system performance by 20%.
- Participated in code reviews and Agile ceremonies, improving sprint delivery efficiency by 15%.

PROJECTS

**Real Estate CRM**  
*React, Express.js, PostgreSQL, WhatsApp API*

*namdevnation.com (coming soon)*  
*MVP Live – 2026*

- Built an end-to-end CRM platform for real estate agents featuring automated WhatsApp follow-up workflows for lead nurturing, enabling agents to manage unlimited leads without manual intervention.
- Implemented intelligent call scheduling system, allowing agents to book and track client interactions directly from the CRM dashboard.
- **Architected and delivered entirely using Claude’s agentic capabilities** (skills, hooks, sub-agents, and commands) — zero lines of code written manually — demonstrating advanced AI-augmented development workflows.

**Homecare E-commerce Platform**  
*Next.js, Express.js, PostgreSQL, Claude AI*

*In Development*  
*2026*

- Developing a full-featured e-commerce platform for homecare services including product listings, cart, checkout, order management, and payment integration.
- Built a comprehensive admin panel for complete storefront management — inventory, orders, users, and analytics — without requiring technical expertise.
- **Entire application developed through Claude’s agentic workflows** with zero manual code, showcasing ability to leverage AI to deliver production-grade applications at accelerated timelines.

**NamdevNation.com — Personal Portfolio & Hub**  
*Next.js*

*namdevnation.com*  
*Live*

- Personal platform serving as a central hub linking all projects, featuring dedicated sections for blogs and technical write-ups, currently being expanded with project showcases and service offerings.

EDUCATION

**Shri Vaishnav Vidyapeeth Vishwavidyalaya**  
*Bachelor of Technology in Computer Science*  
*Minor: Cloud and Mobile Computing*

*Apr 2023 | 8.21 CGPA*

**Certifications**

- IBM — Cloud Computing Practitioner
